

DO YOU KNOW ABOUT THIS?

ON YOUR DOORSTEP

HOW PEDHAM PLACE WILL AFFECT YOU

A new town of 2,500 houses, with 5000+ inhabitants half a mile from the centre of your village.

THE LOCAL PLAN: 2,500 houses, offices, light industrial units and warehousing, a park and ride to Swanley, a health centre and school. Also included is a planning application for a 22,000 seater sports, concert and conference stadium, training ground and a hotel. There is a further area marked for possible development. The development will impact on all areas of our lives:

TRAFFIC: Cars for 2,500 families equates to an unimaginable burden on our already congested M20, M25, A20 and our local roads. There is only one access to the new town on the plan – on to the Teardrop Roundabout. Parking in the village is a constant problem already.

DISRUPTION: Years of noise, and traffic disruption whilst building.

LOSS OF GREEN BELT land with associated noise, air and light pollution.

TRAVEL: A huge demand on our already stressed railway and bus systems.

POLICING: More stress on Kent's already over stretched police force.

HERITAGE: The loss of our peaceful historic village identity.
The site is within the Farningham boundary.
